## FOLD MIRROR

We explore the space between reality and illusion, defying the forces that bind our universe together. Metal is showcased as a supernatural element that melts, reflects, and bends to hold these pieces in balance. Each corner of the stainless steel mirror has a cut that allows it to fold enough to angle its corners to 90 degrees and shape it like a box.

## CLEANING INSTRUCTIONS

### *Stainless Steel*

Gently wipe the surface with a dry, soft dust cloth to lift any marks. For more persistent spots, avoid applying pressure. Instead, use repeated light motions, reapplying with a cloth lightly dampened with clean water if necessary.
